

How to rip DVD to AVI WMV 3GP MP4 FLV SWF MPG MOV video?

Source from <http://www.clone2go.com>

The following step by step guide shows you how to rip DVD to AVI, WMV, 3GP, MP4, FLV, SWF, MPG, MOV, etc. using Clone2Go DVD Ripper.

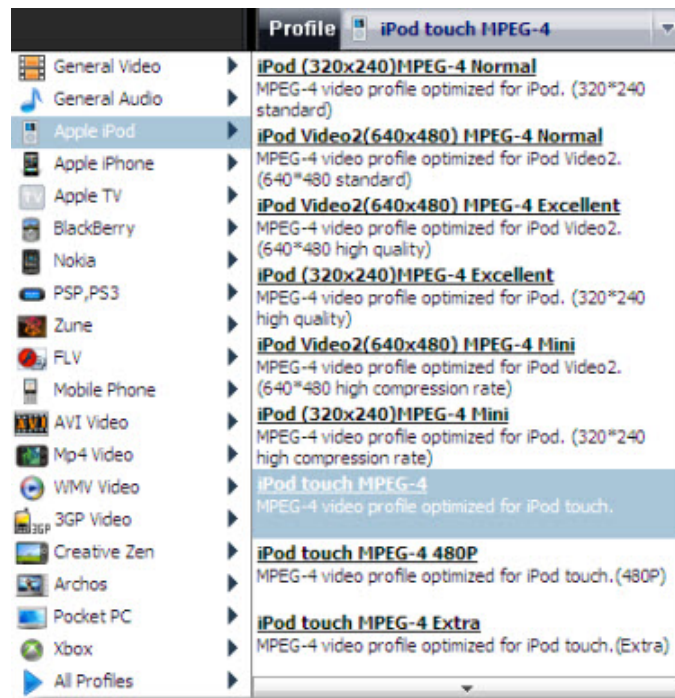

What you will need is Clone2Go DVD Ripper:

<http://www.clone2go.com/products/dvdtoripper.php>

Step 1. Insert your DVD disc into DVD-ROM and run Clone2Go DVD Ripper. Click the "Open DVD" button to import the DVD file. Alternatively, you can click "File -> Open DVD..." to load the DVD disc. After the DVD disc is imported, there will be a list of DVD chapters/titles showing in the program. **Note:** If your DVD movie is saved as a folder in your computer hard drive, you need to click the "Add Video" button to locate and import the movie.

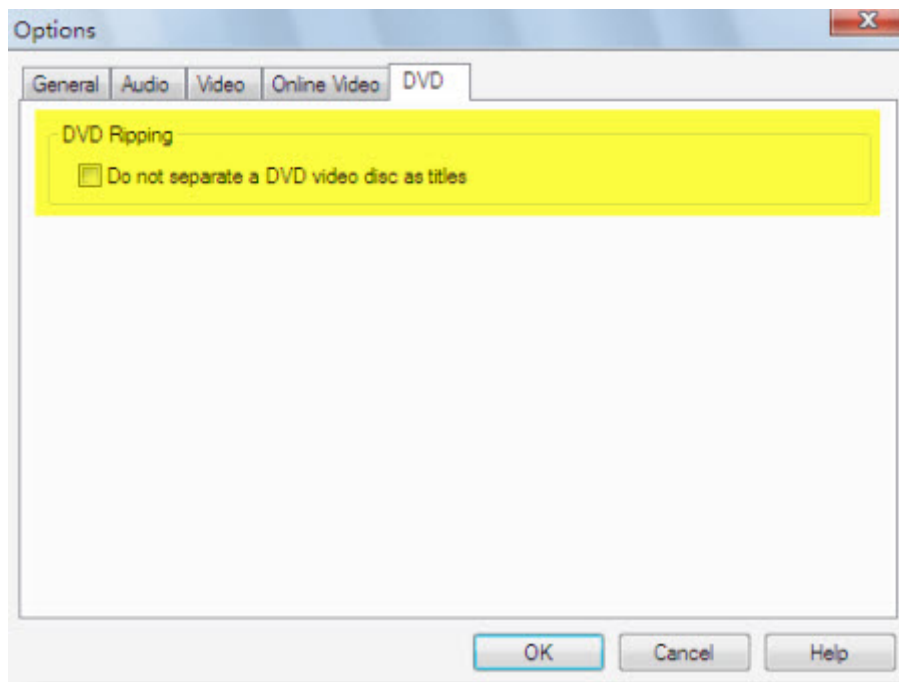

Step 2. Extend the "Profile" category to select an output format according to your mobile device. For example, if you want to convert DVD to your iPod Touch, you can choose "iPod touch MPEG-4" as the output format.

If you want to **customize the output video**, you can click the "Video Options" and "Audio Options" buttons below the "Profile" category. There you can set video resolution, frame rate, bit rate, video codec, etc.

<input checked="" type="checkbox"/> Video Options	
Video Codec	mpeg4
Video Size	480x320
Video Bitrate	1200
Video Framerate	Auto
<input checked="" type="checkbox"/> Audio Options	
Audio Codec	aac
Audio Bitrate	80
Sample Rate	44100
Audio Channel	2
Disable Audio	No
A/V Sync	Basic
Audio Track	Default

If you want to **merge all DVD chapters/titles into one file**, you can click the "Options" button on the main interface. In the pop-up dialog, navigate to "DVD" and tick **Do not separate a DVD video disc as titles**. You will get a whole DVD movie rather than separate files. Of course, you need to make sure all DVD titles are selected.

Step 3. Specify the output folder. Click the "Options" button on the main interface. In the "General" tab, you can specify the folder for the output file. For your convenience, the output file is easily available by clicking the "Folder" button in the main interface after the encoding process.

Step 4. After all the steps above, click the "Start Encode" button to start to rip your DVD movie to AVI, WMV, 3GP, MP4, FLV, SWF, MPG, MOV video file.
